1-2NM+ Solar Marine Lantern

SL-15

The equipment complies with requirements of the U.S Coast Guard in 33 CFR part 66 for private aid to navigation and 33 CFR part 88.15 for lights on dredge pipelines

The Sealite SL-15 1-2NM+ compact LED light is exceptional value and incorporates some of the most advanced technology available. In the tradition of Sealite lanterns, the SL-15 is designed to be maintenance-free and have a service life of over 5 years.

The SL-15 can be installed in minutes and requires no operator intervention. The SL-15 has a rotary switch to allow users to change the flash character of the light without the need for special tools or programmers.

During daylight hours the solar module will charge the battery, and the lantern will automatically begin operation at dusk - once the ambient light threshold drops sufficiently.

The SL-15 features Sealite's Single LED Optic which boasts exceptional power to light output efficiency. The tough outer polycarbonate lens incorporates an environment-friendly spike - deterring unwelcome bird life.

The internally housed battery is user-replaceable after years of reliable service.

The unit is sealed using advanced UV-sealing, enabling a rugged and complete waterproof seal capable of prolonged and deep immersion (IP68).

Optional ON/OFF Switch

The SL-15 is also available with an optional ON/OFF switch for temporary installations such as worksites.

Bird

- User-adjustable flash characters
- User-replaceable battery in sealed battery compartment
- Installs in minutes & operates maintenance-free for up to five years

- Completely sealed & self-contained using advanced UV-sealing
- IP68 waterproof
- NiMH battery for long service life & wide temperature range

Solar Powered

Optional

Optional ON/OFF switch for temporary installations

Technical Specifications ·*		
SL-15		
Light Characteristics		
Light Source	LED	
Available Colours	Red, Green, White, Yellow, Blue	
Typical Maximum Intensity (cd)†	Red - 6.2 Green - 7.6 White - 6.8 Yellow - 5.9	
	AT @ 0.74: 1–2+	
Visible Range (NM)	AT @ 0.74: 1-2+ AT @ 0.85: 1.1-2.3+	
Horizontal Output (degrees)	360	
Vertical Divergence (degrees)	7	
Reflector Type	Single LED Optic	
Available Flash Characteristics	16 user-adjustable IALA flash characteristics (other flash patterns available on request)	
Intensity Adjustments	32 automatic step-down settings based on power demand of flash code selection	
LED Life Expectancy (hours)	>100,000	
Electrical Characteristics		
Current Draw (mA)	Refer to Sealite Power Calculator	
Circuit Protection	Integrated	
Nominal Voltage (V)	3.6	
Autonomy (days)	>50 (14 hour darkness, 12.5% duty cycle)	
Temperature Range	-40 to 80°C	
Solar Characteristics		
Solar Module Type	Monocrystalline	
Output (watts)	0.75	
Power Supply	0.75	
Power Supply Battery Type	High grade NiMH	
Power Supply Battery Type Battery Capacity (Ah)	High grade NiMH 2.4	
Power Supply Battery Type Battery Capacity (Ah) Nominal Voltage (V)	High grade NiMH	
Power Supply Battery Type Battery Capacity (Ah) Nominal Voltage (V) Physical Characteristics	High grade NiMH 2.4 3.6
